

# From Canberra to Chennai, to freak you out!

**T**he original creators of FreakShakes that took the world by storm in 2015 are now in Chennai, with an outlet in a mall in Velachery. With an expansive space, stunning interiors and unparalleled ambience, Patissez welcomes anyone who comes through its doors. Grab a seat inside as your eyes follow the works of art that grace every wall, or take in the view under twinkling lights at one of the tables in the balcony.

Patissez's FreakShakes are the brainchild of Anna Petridis, owner of the original outlet in Canberra, Australia, and strive to be unique in the market with a focus on fresh ingredients, balance in flavours and no added sugars or syrups.

This focus extends to a menu that spans the breadth of the world, pulling upon the experience and taste of their chefs, led by chef Navin Prasad, head corporate chef, who has worked in kitchens from the UK to The Middle East to India. The exciting range of dishes includes Aussie Favourites such as Panzanella and Spiced Pork Ribs, Full American Burger and Bangers and Mash, as well as fusion dishes catered to the local palate such as the Kumbh ka Mela, all

served in that freaky way so that one can expect the extraordinary, every time.

An All-Day Breakfast with eggs from Benedict to Shakshuka is a special feature of the menu that also includes comfort favourites like Pancakes and Waffles. The French Toast is a special treat.

And, oh, the sweet stuff! Made every day inhouse, hand-rolled and delicious, their Doughies are baked, not fried and are a luscious

way to end the meal. Having previously opened two outlets in India in Jaipur and Indore, this brand's journey in India takes an exciting new turn in Chennai.
